Weekend Goals

- Learn a lot of cool tech
- Build amazing projects
- Share what you learn with fellow hackers
- Have a fun 24 hours
- Maintain a safe environment
- We abide by the Major League Hacking Code of Conduct

Important Information

Hackers are allowed on the first, second, and third floor of the building. Places where hackers cannot enter are clearly labeled with a Do Not Enter sign. All the allowed areas have been labeled with “Hackathon Area”

In Case of Emergency...

Evacuation Plan: in the event of an emergency, hackers should use the Highland Avenue facing stairwells. Additionally, ESB is a “high hazard” building due to the toxic process chemicals in the building. In the event of of a chemical release, the fire alarm will go off and the light stack (see below) will indicate the problem (you will see this light stack on the ground floor next to the Cleanroom). Basically, if the blue light is going off, everyone should leave the building immediately.
